Francisco De Santis

Web Developer | WordPress & AI Developer | Elementor · WooCommerce · Shopify ·

Buenos Aires, Argentina (remote) · franciscodesantis96@gmail.com · +54 9 11 3519-2444 · linkedin.com/in/francisco-de-santis - leadicrm.com - Portfolio: Web Portfolio

Summary

Web developer with 5+ years building and maintaining WordPress sites, starting before modern AI tools. For almost four years I have been the only developer at a digital marketing agency, handling 50+ websites, landing pages and online stores across many clients at once, including clients in the US (Miami), Chile and Dubai. I turn Figma designs into WordPress and Elementor pages. Background in Multimedia Design, with a strong eye for clean, visually appealing sites.

Experience

Web Developer — Being Marketing Digital, Buenos Aires (hybrid) December 2022 – Present

- Only developer at the agency: I own every website, store and digital tool across all client accounts.
- Built and maintained 50+ websites, landing pages and online stores on WordPress, Elementor, WooCommerce, Shopify and Tienda Nube.
- Turn Figma designs into polished WordPress and Elementor pages and adapt them to each brand's guidelines.
- Handle a high volume of ongoing change requests across client sites: content updates, banners, plugins, layout fixes and troubleshooting.
- Work with international clients in the US (Miami), Chile and Dubai.
- Basic technical SEO on client sites: GA4, Google Tag Manager, redirects and page speed improvements.
- Use Claude Code daily to generate and debug code, migrate content and automate repetitive tasks, cutting turnaround on routine requests.
- Built Leadi from scratch, the agency's AI-powered CRM for businesses that sell through WhatsApp (leadicrm.com).

Web Developer & Digital Marketing — Freelance, remote October 2021 – Present

- Maintain WordPress websites for direct clients.

- Built and run centrodesantis.com and terapeutaholistico.net on WordPress with WooCommerce, plus a custom scheduling app.

Office Administration Manager — Centro Dr. De Santis, Buenos Aires February 2014 – October 2021

- Ran scheduling, billing and patient service, and managed the team of receptionists.

Selected work

- **leadicrm.com** — landing page for Leadi, the AI CRM I built from scratch.
- **multiphonechile.cl** — Shopify e-commerce store for a phone and tech retailer in Chile.
- **germantorrespan.com** — online course platform (LMS) built with WordPress and Elementor.
- **korndesarrolla.com.ar** — website for a premium real estate developer in Buenos Aires, built with WordPress and Elementor.

Skills

- **CMS & e-commerce:** WordPress, Elementor, WooCommerce, Shopify, Tienda Nube
- **Design to web:** Figma to WordPress and Elementor, responsive layouts, adapting sites to brand guidelines
- **Front-end:** HTML, CSS and JavaScript.
- **SEO & tracking (basic):** GA4, Google Tag Manager, redirects, page speed
- **AI tools:** Claude Code, Claude, ChatGPT, Seedance 2.5, Nano Banana Pro.
- **Workflow:** GitHub, Railway, multi-client agency work, remote and asynchronous teams
